REASONS FOR ALLOWANCE

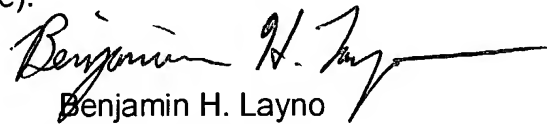

1. The following is an examiner's statement of reasons for allowance: The Canadian patent to Lotterhos discloses a gaming apparatus comprising a gaming table having predetermined locations. Each predetermined location has photoelectric sensor. The patent to Brown 876' discloses a gaming apparatus comprising a gaming table having predetermined locations for receiving gaming tokens. Each predetermined location comprises a photoelectric sensor mounted to a gaming structure or housing. The upper surface of the gaming structure is flush mounted to the surface of the gaming table. The patent to Paulsen et al. discloses a gaming apparatus comprising a gaming table having predetermined locations. Each predetermined location has a photoelectric sensor received in a housing. The patent to Towers discloses a detection system for detecting a position of a ball on a roulette wheel. The detection system uses modulated light.
2. None of the cited references alone or in combination teach the claimed "each photoelectric sensor providing modulated light emissions and sensing modulated light".
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
